

S A F E - f l o o r ®

safety tiles for playgrounds

S A F E - f l o o r ® is a range of rubber safety flooring tiles made of recycled & revalorised rubber granules.

They offer anti-fatigue qualities to the tiles resulting in a high performance flooring and a guaranteed thickness (= guaranteed safety) even after a long period of time.

The tiles are in conformity with the latest security normalisation EN 1177 (European standard) on fall heights

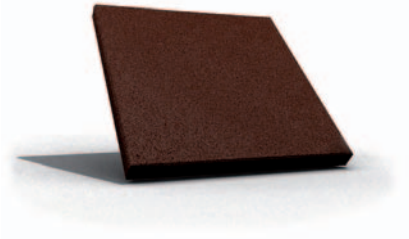

SAFE - floor® type unidal

Monolithic tile in black recycled rubber tinted with a PU binder. Available in black, red or green.

Dimensions:
Tiles of 500 x 500mm

Thickness vs. fall height:
25mm: 0,90 m
40mm: 1,30 m
55mm: 1,60 m
70mm: 1,90 m

SAFE - floor® type servidal

Double layered safety tile composed of one shock absorbing layer (black recycled rubber) and a +/- 10 mm top wear-layer of plain colour EPDM granules. Available in red, green, yellow, blue, beige.

Dimensions:
Tiles of 500 x 500mm

Thickness vs. fall height:
25mm: 0,90 m
40mm: 1,30 m
55mm: 1,90 m
70mm: 2,00 m

PUZZLE TILE

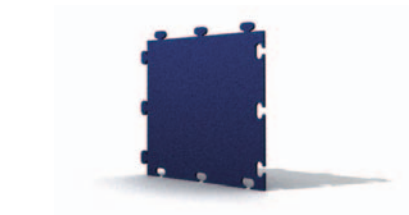

Porous single-layered surfacing material made of coloured EPDM rubber granules agglomerated with a PU binder or made of black recycled rubber with EPDM coloured granules.

Available in red – green – yellow – blue – grey – jazz

(*) puzzle tile for decoration purposes, not subjected to fall height testing.

Dimensions:
Tiles of 500 x 500mm

Thickness:
5 - 10mm

SAFE - floor® benefits

elastic – weather resistant – easy cleaning – UV resistant – shock absorbing – anti-slip

water permeable – executed with drainage canals – optimum aging conditions – low maintenance

in conformity with security normalisations – ...
